*Pure Enjoyment in Every Drop*

# ABOUT US

- Founded in 2020 and based in Chennai
- Aqua Daily is one of the leading suppliers of packaged drinking water, currently in the market.
- Our 20Ltr Premium Packaged Water Jar has tamper-proof caps and the brand name embossed on it. Our water cans undergo a rigorous quality check under the strict vigilance of our quality analysts so as to assure a pure and germ-free supply of water to our client's end.
- Our quality analysts also make sure the water is protected from the sun at all times and goes through meticulous seven stages purification & RO process, where the water is also ozonized and UV treated.
- Our plant is equipped with a fully automatic water filling and packing machine for both 20 ltr jar and water bottles.
- As a leading supplier, Aqua Daily has a well-connected delivery network across the city and our Plant is located in Redhills, Chennai.

We make sure our team keep in constant touch with the client to serve them in accordance with their requirements. You can rest assured that Aqua Daily has been certified by the BIS and complies with all health and quality specifications.

# INFRASTRUCTURE

[www.goaquadaily.com](http://www.goaquadaily.com)

# WATER PURIFICATION

At Aqua Daily we make sure the water consumed by our customers is 100% pure, germ-free, and healthy. Hence, we have a meticulously designed process for filtration and purification.

# WATER FILTERING EQUIPMENT'S

Our Packaged Drinking Water filtering equipment is backed by the latest technology support that meets the defined water purification demands. Further, this equipment comes with an advanced purification process, including water sterilization using oxidants and filtration techniques.

## FINAL STORAGE TANKS

The next step of the purification and filtration process includes the storing of the filtered water into a tank with the help of a water transferring pump.

**AUTOMATIC  
WATER FILLING  
MACHING  
(20 Litres Jar)**
